

## **Ray Tech (Malaysia) Sdn Bhd Launches X-ray Assembling Operations in Johor: A Milestone in High-Tech Industry Development**

In a historic moment for the high-tech industry, Ray Tech (Malaysia) Sdn Bhd celebrated the grand opening of its X-ray Assembling operations in Johor. The event, attended by esteemed members of the media, marked a significant milestone in the industrial landscape of Johor.

With an initial investment of RM50 million, set to increase to RM150 million, Ray Tech's foray into Johor signifies a strategic move towards establishing the state as a hub for high-tech industries. The company, a subsidiary of Unicomp Technology China, brings a legacy of innovation and expertise in X-ray technology to the region.

Ray Tech's state-of-the-art facility is poised to drive transformative changes in the industrial landscape, with a focus on sectors such as healthcare, electronics, semiconductors, and security. The company's extensive range of high-end X-ray detection instruments caters to industries including Automotive, Lithium Battery, and Non-Destructive Testing.

Moreover, Ray Tech's collaboration with local educational institutions such as UTM, Southampton University, and Talent Corp underscores its commitment to nurturing local talent and fostering technological innovation.

As Johor embarks on a new era of industrial growth and innovation, Ray Tech's presence promises job creation, skills development, and economic advancements for the region. The company's dedication to environmental stewardship sets a commendable example for sustainable industrial practices.
